FROM THE SECRETARY'S DESK

Dear AOMSI members,

“Team work is the secret that makes common people achieve uncommon results!”

I would like to thank all the members for giving me the opportunity to serve as the General Secretary of this prestigious association. It gives me great pride as the Association's Secretary to present a brief report and the accomplishments of the association for the year 2017-18.

The previous office bearers have been successful to carve a niche for the association at the global forum and we have been really lucky to carry it forward. The year 2017 - 2018 has been an extremely successful year for the association in all aspects. The Head Office has been constantly striving to improve the work of the association and the office bearers are committed to the excellence of the specialty and the association. Tuning with the Go Green initiative, the Head Office has scraped off the use of paper and has switched to paperless mode of communication wherever possible.

This year too had its usual quota of conferences which was successfully conducted and received well by students and delegates. I would also like to extend my heartfelt thanks to Dr. Kannan for his help with the head office work.

The new office bearers are passionately driven and promise to work for the association to help it scale new heights!

Regards ,

Dr. Pritham N Shetty

3rd EC Meeting

Date: 15.07.2018

Venue: Jubilee Ridge Hotel, Hyderabad

The President briefed the members about shortlisting 2 banks - Kotak Mahindra and South India Bank for being the holder of the association account. The committee requested the President and Treasurer to assess the merits of both and finalise the bank.

The President and Dr. Manoj Baskaran apprised the committee about a modality for Life cover for members in line with the existing scheme run by the IMA and was planned to be taken to the AGM for ratifications. The other issue agreed by the EC and to be taken to the AGM was the prevention of members of Local organising committee from contesting for the key posts during the elections for office bearers when they remain as organisers to prevent an obvious conflict of interest. The previously discussed matter of having a Secretary elect, Treasurer elect and Immediate past Treasurer agreed in the earlier AGM (in Nagpur) was planned to be taken up as an amendment in the forthcoming AGM in Chennai. Another important endeavour of the association as part of the Golden Jubilee celebrations is to bring out a text book on Maxillofacial Surgery which will be open source meaning freely available to everyone interested in the subject. Dr. Krishnamurthy is spearheading the project and he promised that almost all barring a few of the authors will be our members. He also added that the Japanese association was keen on collaborating with our association for research and academic exchange activities. Journal (JMOS)

EDITOR'S REPORT – 2018

1. The year 2018 has seen a steady growth in the Journal of Maxillofacial & Oral surgery as we transitioned from a “Print plus online” to an “Online” only format this year.
2. I am happy to report that the journal has been doing extremely well both in terms of the journal metrics and the related financial statistics.
3. A total of 205 articles were submitted to the Editorial manager of the JMOS in the first half of year 2018, which is slightly more than the corresponding figures in the previous year.
4. In continuation of our policy to publish early in each cycle, we have already published the first three issues of the journal this year.
5. Since the download figures of the new sections started last year were highly encouraging, we have published two articles in the ‘Invited review’ section and one in the ‘Submission to perspectives section’ this year.
6. The Net Royalty for the JMOS in 2017 payable in 2018 was Rs 15,40592/- (Before tax) .
7. A new contractual agreement was signed with our publisher Springer, as the publisher was facing technical difficulties in printing the institutional copies; as in the previous contract these copies were printed in Singapore and shipped to India. So essentially the new contract is now is an agreement with the Springer India arm instead of the springer Singapore arm previously and has been done solely to facilitate the printing of the institutional copies of the journal. I am pleased to inform that in the new contract the Net paid Royalty to be paid to the association from Springer has been increased from previous 30% to 35% .This has been done as a goodwill gesture for the faith reposed by the association in the publisher during this period. I thank the Hon. General secretary for his proactive role in thrashing out the new contract.
8. In our endeavor to improve the journal standards and also on popular demand by some members of the association , we are actively involved in the process of formatting and developing software for sending certificates to the Reviewers for their valuable contribution to the journal.
9. Last but not the least I acknowledge the role of all the Associate Editors and reviewers who continue to help us in making our journal one of the best in the field of scientific publishing in our specialty worldwide.
