FROM THE SECRETARY'S DESK

[Index](#)

Dear Esteemed Members of the Association of Oral and Maxillofacial Surgeons of India,

As I reflect upon the past year, it is with great pleasure and pride that I address you all as we celebrate the successful completion of my second year as your Hon General Secretary. It has been a truly remarkable journey, filled with collaborative efforts and member-centric activities that have further strengthened our esteemed association.

One of the highlights of the year was the implementation of our Maxillofacial Trauma campaign, creating awareness about wearing helmets, wearing seatbelts, saving lives and saving faces. This massive nationwide campaign was launched in 2 phases. The first phase was launched by Hon Cabinet Minister for Road Transport and Highways Shri Nitin Gadkari Ji on 12th and 13th February 2023. The second phase of our campaign was on 26th September 2023. All the state chapters across the nation actively participated in these two campaigns creating awareness about the key role of Maxillofacial surgeons in primary trauma care management. A special video was launched to empower the general public to be responsible citizens and good Samaritans so that they can provide road side assistance until professional medical emergency help arrives.

Additionally, we successfully organized a series of webinars, journal clubs, workshops, foundation Maxfacts and MASTERCLASS featuring renowned experts in the field. These educational sessions covered a diverse range of topics, from the latest surgical techniques to emerging trends in research, ensuring that our students stay at the forefront of knowledge in oral and maxillofacial surgery. The enthusiastic participation and engagement from our students showcased the collective thirst for knowledge.

Our commitment to community service has also flourished this year, with several outreach programs providing much-needed oral health care to underserved communities. Through our COVID and Mucor Fund, we have reconstructed and rehabilitated 8 patients with patient specific and zygomatic implants. This benevolent scheme has transformed many lives a leap forward and we look forward to support more deserving patients.

As we continue to grow and evolve, I encourage each member to actively participate in the upcoming events, share your expertise, and contribute to the vibrant tapestry of our association. Your involvement is integral to the success of our collective endeavours. Looking ahead, I am optimistic about the future of our association and the continued advancements we will make together. Let us build upon the achievements of the past year and work collaboratively to elevate the field of oral and maxillofacial surgery in India.

I would like to take this opportunity to thank the President DR. VIKAS DHUPAR, all the executive committee members, all the state chapter's office bearers for successfully conducting a number of programmes throughout the Nation with the goal of taking our dearest speciality to greater heights and make maxillofacial surgery a household name.

Jai Hind

DR. S GIRISH RAO

Hon. General Secretary, AOMSI

Foundation Courses

Foundation Maxfac

Foundation Skills

FOUNDATION MAXFAC

The AOMSI has identified a significant lacuna in maxillofacial training. Inadequate emphasis on medicine has led to poor understanding of various organ systems and associated disorders in patients. The consequences of undertaking Maxillofacial surgical procedures in these patients without optimization can translate into life threatening episodes and clinical disasters. The association has undertaken an initiative to fill this gap with a 3 day interactive course for trainees, with lectures, video assisted problem based scenarios and group discussions.

SKILLS COURSE

B.A.S.I.C.S is a complementary course to the "Foundation Maxfac" course an initiative of the Association of Oral & Maxillofacial Surgeons of India (AOMSI) that aims at training the Surgeons in the essential skills that might be life saving in clinical scenarios. The objective of the course is to inculcate basic concepts of perioperative management and procedures involved in these through supervised practical experience and multiple interactive lectures.

FOUNDATION MAXFAC

The topics covered will include :

- + Importance of clinical history
- + Systemic examination and investigations
- + Pre-anaesthetic evaluation
- + Common perioperative case scenarios
- + Pre-operative workup, documentation including informed consent
- + Investigations, intra operative monitoring and related issues
- + Post-operative protocols
- + Medical emergencies in the ward
- + Soft skills including communication
- + Pre and post test to evaluate the effectiveness of the course

SKILLS COURSE

The topics covered will include :

- + OT Etiquette - Gowning, Prepping and draping.
- + Airway & Breathing - Ventilation, Intubation, Tracheostomy Care
- + Circulation - Vascular access
- + Suturing Techniques, Materials, Knots
- + Drain and wound care
- + Nutrition Management- NG Tube, PEG, PICC line, TPN
- + Catheterization
- + BLS
- + Introduction to endoscopy and fibroptic intubation.

Trauma Campaign

[Index](#)

I would like to begin by thanking each and every one of you for the grand success of the Trauma Campaign 2023. As a part of OMFS day celebrations this year, we dedicated our services towards Maxillofacial Trauma – Saving Lives, Saving Faces; Wear Helmets Wear Seatbelts. The aim was to empower the general public to be responsible citizens and good Samaritans so that they can provide road side assistance until professional medical emergency help arrives. February 12th and 13th marked the curtain-raiser to kick start a year-long program in this direction.

As a part of celebrations, we had organized a host of programs to mark this special day. Every state chapter took pride in organizing programs this year. From walkathons, cyclathons, beach walks, flash mobs, poster presentations, public awareness initiatives to scientifically enriching CDE programs, February 12th and 13th was celebrated in full fervour.

The highlight of this year's celebration is that this campaign was launched by **Shri Nitin Gadkari Ji, Hon. Cabinet Minister of Road Transport and Highways, Government of India**. We were grateful for his positive response and he extended his ministry's full support and encouragement for the same.

Trauma campaign was done in 2 phases. In the 2nd phase on 26th September 2023, we educated our citizens by creating awareness on road safety by mandatorily wearing helmets and seat belts with the view of prevention of major injuries due to road traffic accidents. We educated college students between 16-25 years through this campaign.

A high impact video to empower the general public to be responsible citizens and good Samaritans so that they can provide road side assistance until professional medical emergency help arrives was released by AOMSI and had a wide reach all across the country and the world.
