Aims and Scope

JMOS is a quarterly journal offering comprehensive coverage on new techniques, recent developments and innovative contributions on oral and maxillofacial surgery. The journal publishes papers of high scientific merit and widest possible scope on oral and maxillofacial surgery. Clinical articles help develop the methods used to handle dentoalveolar surgery, facial injuries and deformities, TMJ disorders, oral cancer, jaw reconstruction, anesthesia and analgesia. The journal also includes specificities on new instruments and diagnostic equipment and modern therapeutic drugs and devices.

Copyright Information

For Authors

As soon as an article is accepted for publication, authors will be requested to assign copyright of the article (or to grant exclusive publication and dissemination rights) to the publisher (respective the owner if other than Springer Nature). This will ensure the widest possible protection and dissemination of information under copyright laws.

More information about copyright regulations for this journal is available at www.springer.com/12663

Submission of Manuscripts

Authors should submit their articles to the Journal of Maxillofacial and Oral Surgery online to facilitate quicker and more efficient processing. Electronic submission substantially reduces the editorial processing and reviewing time and shortens overall publication time.

You may submit the articles by using the link www.editorialmanager/maos. After submission the copyright form is to be signed

by the corresponding author, changes of authorship or in the order of the authors listed will not be accepted.

This form can be obtained from the Journal Website: <http://www.springer.com/maos/>

Copyright Transfer

All submissions should include a properly signed letter by the corresponding author addressed to the Hon. Editor stating:

The copyright to this article is transferred to the Journal of Maxillofacial and Oral Surgery (JMOSI) effective if and when the article is accepted for publication. The author warrants that his/her contribution is original and that he/she has full power to make this grant. The author signs for and accepts responsibility for releasing this material on behalf of any and all co-authors. The copyright transfer covers the exclusive right to reproduce and distribute the article, including reprints, translations, photographic reproductions, microform, electronic form (offline, online) or any other reproductions of similar nature.

Archiving

An author may self-archive an author-created version of his/her article on his/her own website. He/she may also deposit this version on his/her institution's and funder's (funder's designated) repository at the funder's request or as a result of a legal obligation, including his/her final version, provided it is not made publicly available until after 12 months of official publication. He/she may not use the publisher's PDF version which is posted on link.springer.com for the purpose of self-archiving or deposit. Furthermore, the author may only post his/her version provided acknowledgment is given to the original source of publication and a link is inserted to the published article on Springer's website. The link must be accompanied by the following text: "The original publication is available at link.springer.com".
