FROM THE SECRETARY'S DESK

Dear Colleagues,

Our association is growing in strength, and although Covid-19 marred the last two years, we continued our quest for scientific up-gradation through some well organised AOMSI online meetings. These webinars were widely appreciated and attended. I apologise that we couldn't conduct the AGM last year, but the vaccination drive and the hope of doing it sooner than later meant it was wiser to wait for it to be done in person than online.

So we are now gearing up for a fantastic scientific fest at Mangalore for the 45th Annual Conference. With the Covid precautionary protocols in place, we hope to see the AGM association members on the 3rd of December.

Thank you all for the support,

Regards ,

DR. PRITHAM N SHETTY

1ST EC MEETING

Date : 16th November 2019
Venue: Bengaluru
EXECUTIVE COMMITTEE MEETING ON 17TH NOVEMBER 2019

The Executive Meeting of the Association of Oral Maxillofacial Surgery was convened at Tulip Hall at Sheraton Grand Convention Centre Whitefield Bengaluru on 17th November 2019 at 10 30 am. Dr Pritham Shetty announced the commencement of the meeting and said we will be calling non members to attend the meeting to talk

- 1) Dr Deepak Kulkarni on National Registry
- 2) Dr Bhagwan Das Rai for Oral Cancer Awareness
- 2) Dr Arun Kumar for Repopularising Dentoalveolar Surgery
- 3) Dr Dipesh Rao for fellowships abroad

The Minutes of the Meeting are as Follows

The meeting was called to order by Dr Veerabahu M (President AOMSI)

In his Presidential Address Dr Veerabahu told this association is for the welfare of the members. Members expect professional guidance. Dr Veerabahu stressed the necessity of reaching out to the general public for creating awareness by

- 1) Creating awareness of the public by talking to organisations like Rotary etc
- 2) Making presentations in Indian Medical Association, keeping a stall in IMA conferences
- 3) Collaborative programme with IDA

Dr Veerabahu also felt it was necessary to lobby with the Dental Council of India and Ministry of Health. He sensitised people like ambulance drivers, traffic policemen about the role of OMF Surgeon in Facial Injuries.

Dr Veerabahu suggested the addition of subject of Management of Medically Compromised Patients and Medical Emergencies as a subject in BDS with BLS being a practical exam. He also suggested that ACLS course should be made mandatory before registration of MDS student. Dr Veerabahu suggested that OMF Surgeons should be trained in administering Nitrous Oxide to patients in Dental Clinics and that this can create new job opportunities for a maxillofacial surgeon. Also he suggested a Maxillofacial Surgeon should work with a radiation oncologist / medical oncologist

Dr Veerabahu suggested that the search engine in Google should be optimised so that OMFS will be the first to appear when facial trauma is searched. Dr Veerabahu suggested that on Feb 13th the Association should insert a full page advertisement in all National Newspapers for creating awareness, though it might be an expensive affair it needs to be done once. He suggested job opportunity in the website of AOMSI. Also Dr Veerabahu felt it was necessary to have a separate Maxillofacial Surgeon in each District. Hospital and that he will take up the responsibility of explaining this to Ministry of Health. Dr Veerabahu suggested that Dr Girish Rao take up the February 13th presentation which can be

presented in IDA, IMA etc to create awareness. Briefing By Dr Deepak Kulkarni on Creating a National Registry

Dr Deepak Kulkarni at the outset mentioned that about 3 to 4 months back there was a serious case involving a maxillofacial surgeon wherein he had performed a surgery on a syndromic patient and the patient expired after 10 days. Though with his support the case was managed, he felt that there is no support system for maxillofacial surgeons. The whole idea of registry is to arrive at a consensus in our speciality so that it can safeguard members and a policy can be formulated to reach the Government. Dr Deepak K suggested a budget of 15 to 20 lacs of which the software cost will be borne by the

association, the other cost to be borne by the association will be travelling and lodging of the committee members

He suggested that Trauma, pathology, orthognathic surgery, dentoalveolar surgery etc should be there in the registry

Dr Kulkarni suggested five members to be in charge and also that he will suggest their names. The job of the vendor will be to maintain the software and prepare the registry.

He also suggested a minimal cost to be paid by a member to maintain the registry. Association should subsidise this. The Vendor will be finalised by 20th January 2020

There will be meeting in PUNE ON 19TH Jan 2020 to be attended by the president, secretary, ex officio member to finalise the vendor.

He requested the sanction 25,000 to 30,000 Rs for Hall, AV system and food. Dr Kulkarni also said that he will make a presentation in the 3rd Ec meeting, in Mangalore 2020 and then in Indore 2021 where the members will enrol. He will be in charge of this initiative for 3 years.

Dr Deepak said he needs to travel to all major cities in India where he will sign up 300 Maxillofacial surgeons ie approximately 20 surgeons in each city

Dr Deepak suggested that even sensitive court cases can be uploaded wherein few people will be able to access by OTP

Dr Krishnamurthy said he had involved Dr Manjunath a maxillofacial surgeon from Oman who had provided the software of National Registry in Oman of which he was in charge. An amount of 2 lac was spent. However despite the members being provided no one responded and the upload is being done only at Mahaveer Jain hospital in Bangalore

He mentioned that unless members provide the data it is difficult to fight case in a court of law. He also suggested that quotation from a few more vendors should be obtained before finalizing. Dr Girish Rao was of the opinion that this cost of the registry should be borne by the association as members will not pay for that. Dr Kulkarni said he did not want to be involved in the financial aspect. Dr Pritham told that a pilot study has to be done before the Mangalore conference. Dr Gosla Reddy said the property rights and specifications of the registry. The Executive Committee approved the proposal by Dr Deepak to set up National Registry. Dr Manikandan wanted to know whether it's a prospective or retrospective

It was also mentioned that registry will include prospective data by Dr Pritham. The Proposal for National Registry was approved by the EC

ORAL CANCER AWARENESS

Dr Bhagwan Das Rai discussed the Oral Cancer Awareness campaign carried out this year

A total of 3618 transport drivers were examined for lesions in the oral cavity. However the data were not matching for eg in one column it was mentioned about smokers but the tobacco form in which the respondents smoked did not match the total no. Another example was Mouth opening was three fingers, in some cases two fingers but there was no

AOMSI

Association of Oral and Maxillofacial Surgeons of India

Dr Arun K in presented his ideas on Dentoalveolar promotion day/week/month

Dr Pritham said since already 13th Feb and 31st July were blocked the Dentoalveolar Awareness should be kept in July

Dr Veerabahu stressed that no objections would be entertained and this campaign will go on Dr Girish Rao wanted to know what is this for Dr Pritham replied that since we are promoting awareness of oral cancer,etc for dentoalveolar surgery pt don't go to oral surgeons but do to dentist hence the need for awareness.

Dr Pritham stressed that this will be observed not as a day but as a campaign only he told the members to avoid using the word day. He also said we need to take it forward only and create awareness that maxillofacial surgeon can do this.

Dr Ashish Gupta Suggested that take up say dentoalveolar surgery this year next year maybe implants

Dr Arun Kumar said this has to be done in institutions and use AV aids to promote also he suggested standard post op instructions for which Dr Pritham said Dr Dabirs Consent form is available in the website

Dr Pritham said Dr Dipesh can do a webinar for the same. Dr Vijay Deshmukh asked why should the same trainee who has completed AOMSI fellowship be sent sent abroad .New trainees should be sent. Dr Dipesh Rao suggested that the trainees can be assessed based on their publications also. It was suggested by Dr Pritham that Dr Vijay Deshmukh be made in charge of this
