

Call for submissions on Reconstruction and Rehabilitation of Maxillofacial defects

Dear Authors, researchers and readers,

I am pleased to announce a **special edition issue of JMOSI on the topic "Current concepts in Reconstruction and rehabilitation of maxillofacial defects"**.

Special issue details : <https://www.springer.com/journal/12663/updates/23235098>

Submit here : <https://www.editorialmanager.com/maos/>

Submission guidelines : <https://www.springer.com/journal/12663/submission-guidelines>

The image shows a screenshot of the journal's website on the left and the journal cover on the right. The website page features the journal title, navigation links, a 'Journal updates' section with a photo of Dr. Julio Acero, and details about a special issue on reconstruction and rehabilitation of maxillofacial defects, including the guest editor's name and proposed publication dates. The journal cover displays the title, editor-in-chief's name (Amit Dhawan), and the association it represents (Association of Oral and Maxillofacial Surgeons of India).

Areas of interests : *Reconstruction and rehabilitation of maxillofacial defects created as a result of craniomaxillofacial trauma, Ablative surgery due to malignancy, benign tumors and pathology like mucormycosis, osteomyelitis, osteoradionecrosis and other craniofacial deformities. The issue will accommodate articles related to patient specific implants, Dental and maxillofacial implants, prosthetic rehabilitation, virtual surgical planning, 3D printing and current methods of reconstruction and rehabilitation as well.*

Contact Editor JMOSI at editor@aomsi.com for queries related to special edition issue.

Best regards

Dr Amit Dhawan

Editor, JMOSI
